Descriptive Catalogue of

Roses, Palms, Shade and Ornamental Trees

Established 1866

Grown and sold by

E. Gill

Nurseries
San Pablo Ave. North of University Ave.
West Berkeley, Cal.
Introductory

In presenting this, our new catalogue it has been our aim to give but a brief description of the stock grown on our grounds. We trust the simple and systematic arrangement may be convenient for our patrons in making out their orders.

We make roses out great specialty, and no expense or trouble is spared to keep the list select and up-to-date. Our roses have received first prizes when ever exhibited in the San Francisco flower shows.

In the shade and ornamental line also, our nursery is kept fully up to the times, and the stock is offered at the lowest prices consistent with the quality.

We invite personal inspection of our stock at our nurseries. These are located on San Pablo avenue just north of West Berkeley and on the Southern Pacific Railroad. They can be reached from Oakland and Berkeley by San Pablo Avenue County Line cars which pass the grounds. They are also in easy access from San Francisco.

Parties must address distinctly, and state by what mode they wish their goods shipped. After delivery to forwarder, in good condition, all shipments are at customers risk.

All plants will be carefully packed and delivered on board of the steam-boat or railroad free of charge.

Remittance may be made by check or draft on San Francisco or Oakland; or by post office order or order express on West Berkeley.

Letters requiring any information in the business will be promptly answered.

Address all communications to

E. GILL, Nurseryman, West Berkeley, Cal.
Roses

In order to supply the increasing demand for roses, we have enlarged our stock, and are now propagating plants on a more extensive scale than ever. Having added to it all the new varieties of recent introduction worthy of merit, and discarding those of little or no value, we believe that we have now the finest collection offered on the Pacific Coast. The plants are all large, grown in the open ground, and thus can not fail to give satisfaction.

Our immense stock and long experience enables us to furnish assortments adapted to the various conditions and climates. Parties not familiar with the different varieties will do well to leave their selection to us.

Prices, except where noted, $3 per dozen, $15 per 100.
Extra large plants, $6 per dozen, $25 per 100.

Adam. Rosy carmine.
Alice Grahame Ivory white, tinged with salmon. 50c.
Admiral Dewey. The white Caroline Testout.
Agrippina. Deep crimson
Adrine Duvivier Dark crimson
